SEPTEMBER 2025

Overseas Model Shown

# All-new Kia Niro. Refined by Design.

The perfect compact SUV, the all-new Kia Niro is a fluent expression of Kia's Opposites United design language. Shaped by advanced aerodynamics and offering class-leading space and safety, every detail has been considered to make life a little easier.

Not all features are available on all models.  
Overseas model shown.

## The next step in style.

Longer and wider, the Niro has been redesigned from the ground up, with strong lines and unique details, including sculptural headlights and tail lights flowing into a signature rear C-pillar that highlights the profile.

As with every vehicle Kia designs, advanced engineering drives Niro's stunning looks. The arresting profile is shaped by advanced aerodynamics that improve energy efficiency, while the C-pillar conceals an extra air intake that reduces static pressure, allowing for exceptionally quiet and efficient highway cruising.

Inside, the Niro welcomes you with class leading amounts of interior space and legroom. There's more than enough space for everything from school runs, to outdoor adventures.

Not all features are available on all models.

Overseas model shown.

# Seamlessly blends petrol and electric power.

The Niro's Smart Hybrid powertrain offers the perfect balance of performance and economy. Pairing a powerful 32 kW electric motor with a responsive 1.6 litre petrol engine, the intelligent hybrid drive system switches between electric, petrol and a combination of both to deliver responsive power with reduced emissions and fuel consumption in urban driving. The constantly recharges itself on the move or under regenerative braking, ensuring that an electric boost is always there when you need it.

Not all features are available on all models.

# Your comfort zone.

Easy to read and operate, the dual 10.25" Digital Drive Cluster with 10.25" touchscreen infotainment display (GT-Line exclusive) hosts a multitude of features such as Bluetooth, Android Auto™ & Apple CarPlay™ connectivity to enrich your driving experience.

Available on Water and GT-Line variants is the full colour Head Up Display (HUD). Navigation guidance, vehicle speed and speed limits are projected directly on the windshield, so you can look ahead while keeping your eyes on the road.

Standard across the lineup is the Switchable Control Panel. The infotainment and climate control systems share the same LCD touchscreen buttons. Press the fan / arrow button to switch between climate and infotainment controls.

\*Only Available on HEV Water & GT-Line Trims.

## Technology meets sustainability.

The all-new Niro makes extensive use of sustainable, recyclable and non-toxic materials, including recycled plastic, vegan bio leather made from eucalyptus leaves and non-toxic BTX-free paints.

In the GT Line model, Remote Smart Park Assist allows you to enter and exit parking spaces using the key fob as a suite of sensors precisely guides your Niro into even the tightest of spaces.

Overseas model shown.

Overseas model shown.

When you have your hands full, stand behind your parked Niro for three seconds with the key close by and the hands-free smart tailgate in Niro Water and GT Line models opens automatically.

Overseas model shown.

## The next level of safety.

With a rigid passenger cell and seven airbags, the new Niro protects you with a suite of active collision avoidance and safety assist systems including Kia's Advanced Driver Assistance System\* (ADAS) that steps in to control the brakes if it senses the risk of a collision.

\*Safety technologies are supplemental systems and do not replace the need for the driver to exercise care and attention. For more information about Kia's safety systems, please refer to your Kia vehicle's owner's manual.

Information contained herein is for comparative purposes only. Specifications at any given time may vary to the above.

- \* Fuel consumption figures shown are converted 3P-WLTP figures, and are stated for the purpose of comparison. Actual results achieved will differ according to operating conditions and driving style.
- \*\* Not all handsets may be compatible.
- ∞ Apple CarPlay: Requires an iPhone 5 or later and it is recommended to always update your iPhone to the latest iOS release. Use the Apple Lightning cable provided with your phone, or Apple certified Lightning cable.
- † Android Auto: Requires an Android phone with Android 5.0 Lollipop or higher. It is recommended to always update your phone to the latest OS release. Use the USB cable provided with your phone.
- ° Not all mobile phones will be compatible with the vehicle's Bluetooth® and multimedia system. Not all mobile phones will be compatible with the vehicle's Bluetooth® and multimedia system. Kia Motors cannot guarantee continued compatibility.

# Kia confidence goes further.

All new Kia HEV Passenger Vehicles come with an impressive 7-Year/150,000 km (whichever comes first) Warranty Programme covering against manufacturing or assembly defects. This warranty programme is transferable between owners and emphasises our commitment to our customers.

All new Kia vehicles that are powered by a high-voltage drive battery come with a 8-year/160,000 km (whichever comes first) warranty that covers components found in the drive battery case. In the event that your vehicle becomes immobile due to a high voltage battery or system failure, we'll cover the cost of the tow to the nearest authorised Kia dealer.

A Roadside Assistance Programme for the duration of the Warranty Period is also offered on every new Kia at no cost. In the unlikely event that your Kia has broken down, help is only a call away and trained staff will be dispatched to your location. If a repair cannot be conducted on the spot, the vehicle will be towed free of charge to the nearest Kia dealer.
