## Fully electric

## Endlessly versatile

Movement that inspires

### The new Kia PV5. A giant leap for vankind.

The Kia PV5 is an entirely new concept in electric mobility that can be configured to transport passengers, carry cargo or become a mobile workspace.

Up to 416km\* between charges, the PV5 adapts to you, delivering smart connectivity and movement that inspires new ideas.

\*Cargo Long Standard Roof (WLTP)  
Overseas Model Shown

# PV5 Cargo

## Drive your business forward

Cargo Standard Roof: Arriving Q2 2026. Cargo High Roof: Arriving Q1 2027.

The PV5 Cargo is a versatile electric delivery vehicle and mobile workspace all in one.

Need to run tools or lights on site? Just plug into the PV5's Vehicle-to-Load (V2L) outlets for 240V AC power wherever you need it.

The PV5 has two V2L outlets - one in the cargo area and an exterior V2L in the charging port accessed by an optional V2L adaptor.

The height of flexibility.

Available in two roof heights, the PV5 Cargo offers a maximum 5,165 litres of cargo space\* with up to 1,815 mm of interior height for tall loads\*.

Choose the standard height roof for 1,520mm of interior height and 4,420L of cargo capacity.

Payload capacity is 690kg for standard roof or 630kg for tall models\*\*. The low 419mm rear step height allows for easy loading as well as providing a versatile work surface.

\* Cargo Long High Roof Only. \*\* Preliminary Specification. Subject to change without notice

# PV5 Passenger

## Fully loaded for comfort

7-Seater Passenger Van: Arriving Q4 2026.

Overseas Model Shown

HIGH RES IMAGE REQUIRED

Overseas Model Shown

From school runs to camping trips, the PV5 Passenger delivers the space, comfort and safety every journey needs.

The PV5 Passenger comfortably seats 7 but with up to 665 litres of available cargo space, it's also an incredibly versatile hauler.

Standard features include a 12.9-inch touchscreen with Apple CarPlay and Android Auto, auto temperature control and heated front seats to make every journey comfortable.

Overseas Model Shown

There is no shortage of charging options in the PV5, with a wireless charger and 240V, three-pin V2L connection in the centre console, as well as multiple USB Ports for phones and laptops.

The Walk Away Lock ensures your cargo and belongings are protected by locking the doors when you step away from the PV5.

# Kia Connect

On the job or on the move, the Kia PV5 delivers a smarter, connected experience with Kia Connect.

## Remote Control

Lock or unlock doors, start the engine, and set the perfect temperature—all before you step inside the PV5. With Kia Connect, control is always in your hands, right from your phone.

## Remote Vehicle Management

Monitor your PV5's status anytime, from anywhere. Kia Connect provides updates and maintenance alerts, so you're always ready for the road.

## Safety & Security

Stay protected with intelligent safety alerts and features, designed to keep you and your loved ones secure.

## Over-the-Air (OTA) Updates

With Over-the-Air (OTA) updates, your vehicle's software, navigation, and features stay current. Enjoy the latest features and performance improvements. Stay on track with updated routes and points of interest for a smoother journey - all without visiting the dealership.

## Kia eCall emergency system

In case of an accident where the airbag is deployed, this feature will automatically contact the Kia Connect 24/7 call centre for your safety. The dedicated SOS button allows you to call the centre yourself if necessary.

Free Kia Connect & OTA Updates

# A pair of safe vans

To ensure the safety of you and those around you, the Kia PV5 Passenger and Cargo are equipped with Kia's Advanced Driver Assistance Systems (ADAS).

**Highway Driving Assist/Lane Keeping Assist 2**  
Highway Driving Assist maintains a safe distance from the vehicle in front on expressways/highways while also maintaining the driver's selected speed.

**Forward Collision Avoidance Assist**  
The system warns the driver when the preceding vehicle brakes abruptly or when a stopped vehicle, pedestrian or bicycle is in front of the vehicle. If necessary the car will automatically apply the brakes to prevent a collision.

**Blind-Spot Collision-Avoidance Assist**  
When exiting a parallel parking space, automated braking assistance avoids collisions with passing vehicles. The system produces a flashing display on the mirror and an audio alarm is activated when the system detects a vehicle approaching on the side when the turn signal is activated for a lane change.

**Navigation-based Smart Cruise Control**  
When driving on motorways and highways, the system maintains a safe speed in line with the traffic. It automatically reduces the speed of the vehicle in a safe speed zone and on curved roads, then returns to the set speed under normal conditions.

ADAS is only intended to assist the driver. Be attentive while driving at all times. / Functions may not operate smoothly due to road or driving conditions. / Please refer to the user's manual for details.

Information contained herein is for comparative purposes only. Specifications at any given time may vary to the above.

\* Driving range figures standards are calculated using the World Harmonised Light Vehicle Test Procedure (WLTP). Actual results achieved will differ according to operating conditions and driving style. \*\* Charging times of the high-voltage battery may vary according to the condition and durability of the high-voltage battery, charger specifications and ambient temperature. \*\*\* Not all handsets may be compatible. † Charge time with 350kW DC ultra-fast charger. Actual charge will vary with options, driving conditions, driving habits, vehicle maintenance, charging practice, battery age, weather, temperature and your vehicle's condition. ∞ Apple CarPlay: Requires an iPhone 5 or later and it is recommended to always update your iPhone to the latest iOS release. Use the Apple Lightning cable provided with your phone, or Apple-certified Lightning cable. † Android Auto: Requires an Android phone with Android 5.0 Lollipop or higher. It is recommended to always update your phone to the latest OS release. Use the USB cable provided with your phone. Kia cannot guarantee continued compatibility.

## Kia confidence goes further

Your new Kia PV5 is covered by a 7-Year/150,000 km (whichever comes first) Warranty Programme covering against manufacturing or assembly defects. This warranty programme is transferable between owners and emphasises our commitment to our customers.

All new Kia vehicles powered by a high-voltage drive battery come with a 8-year/160,000 km (whichever comes first) warranty that covers components found in the drive battery case. In the event that your vehicle becomes immobile due to a high voltage battery or system failure, we'll cover the cost of the tow to the nearest authorised Kia dealer.

A Roadside Assistance Programme for the duration of the Warranty Period is also offered on every new Kia at no cost. In the unlikely event that your Kia has broken down, help is only a call away and trained staff will be dispatched to your location. If a repair cannot be conducted on the spot, the vehicle will be towed free of charge to the nearest Kia dealer.

Your new PV5 comes with a complimentary 6-year subscription to Kia Connect and Over-the-Air (OTA) Updates. Synchronise destinations, check the vehicle status, control certain vehicle functions and more with the Kia Connect app.
