

Kia Stonic

Movement that inspires

Overseas Model Shown.

SEPTEMBER 2025

Life is what you make it

At Kia, we believe movement inspires ideas. Great ideas come to you when you're on the move. Whether you're walking, traveling on a train or driving.

It's why we create the spaces and the time you need to bring ideas to life. Very like the experience that awaits you behind the wheel of every Kia. With our design, space innovation, purpose driven technology and built in sustainability, we aim to inspire every time you encounter the Kia brand.

Because you never know where your next big idea awaits. But they are out there. Waiting to be discovered. So, what are you waiting for? Get moving. Get inspired.

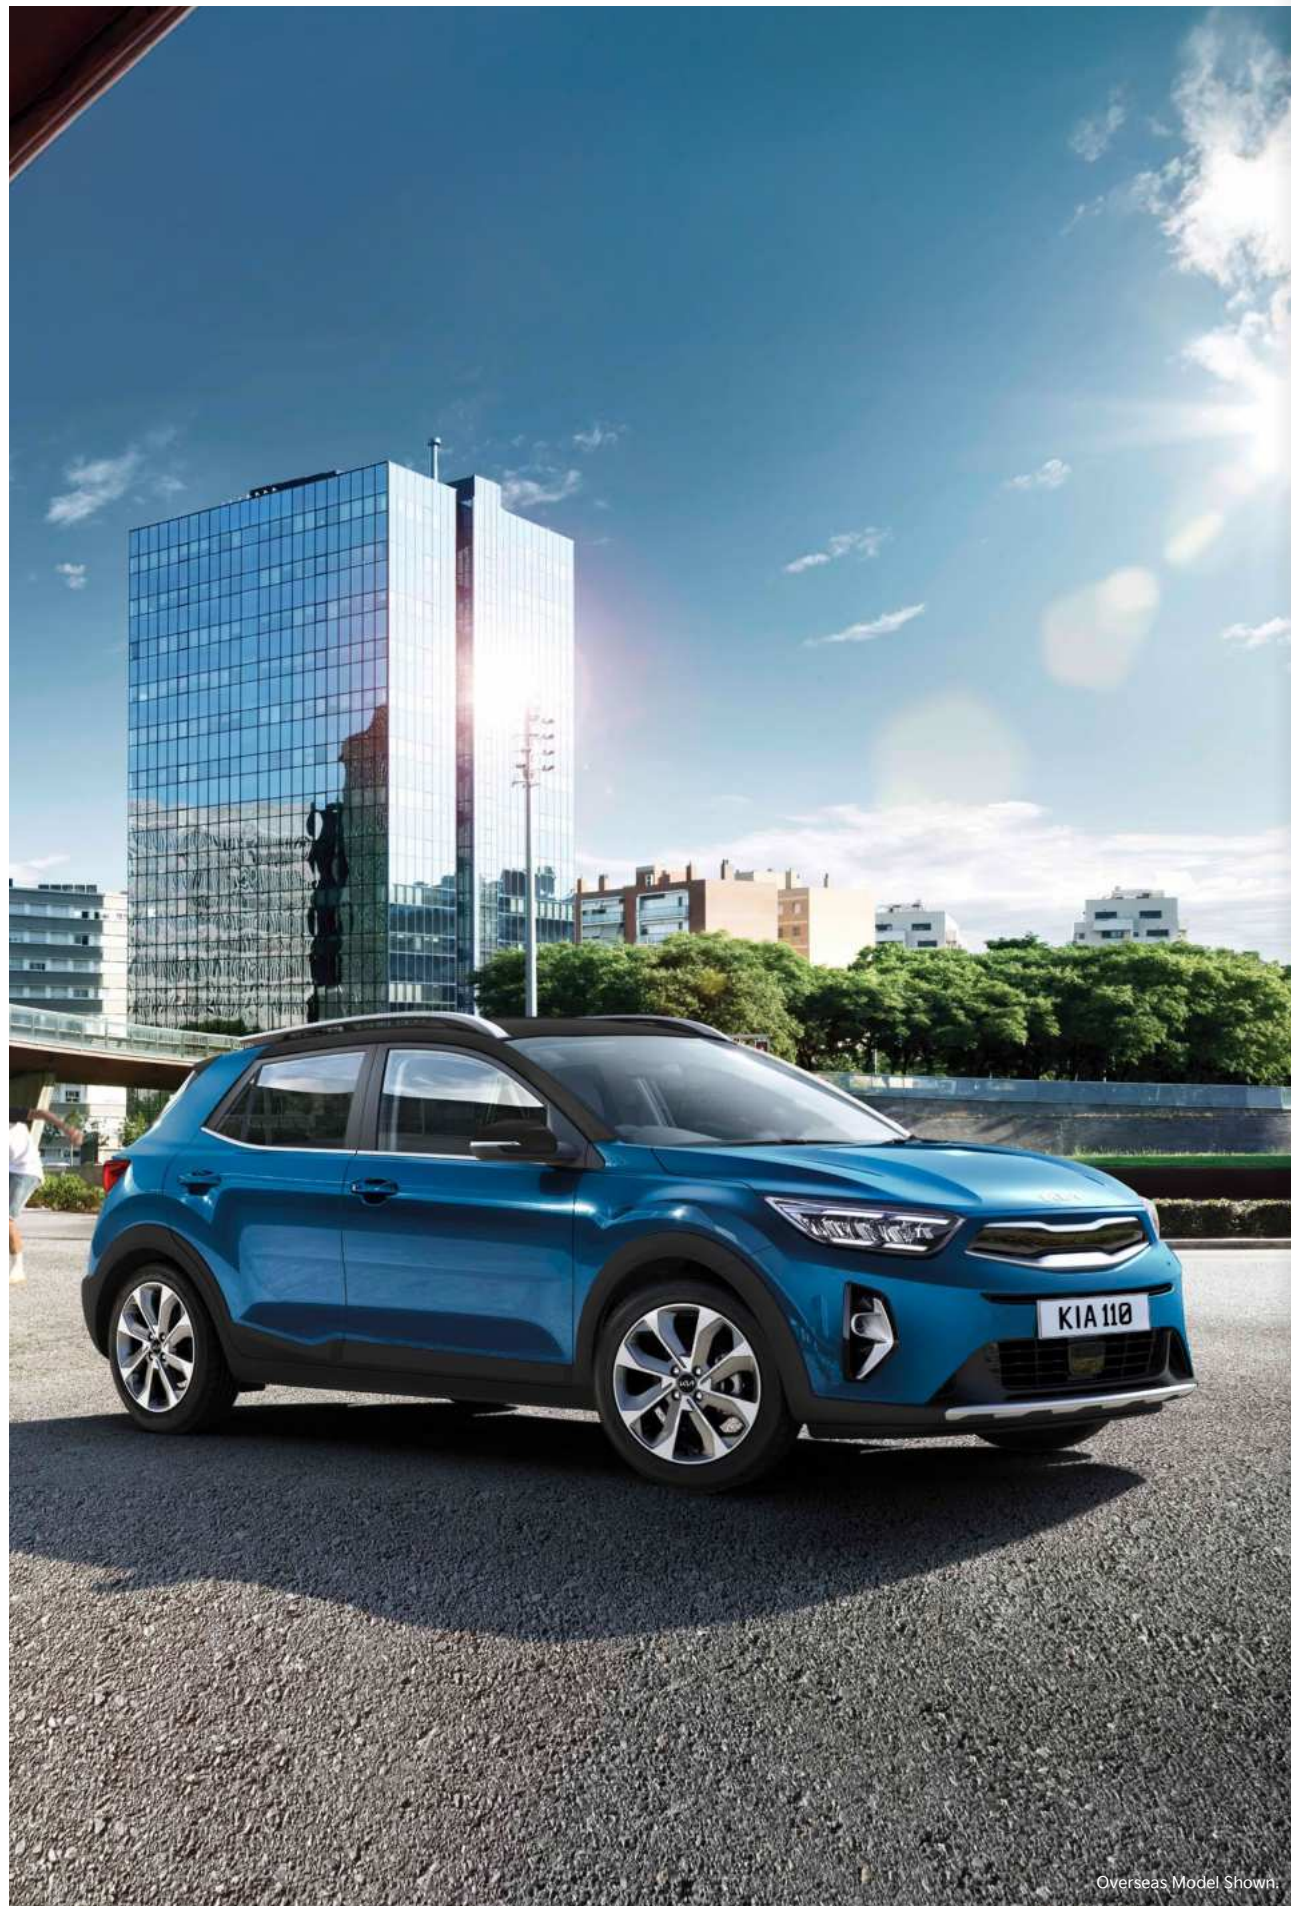

Overseas Model Shown.

Performance at its finest

Created for drivers who grasp every moment, push every boundary and relish every adventure, the all new Kia Stonic brings fresh excitement and a free spirit to the crossover experience. With its sleek muscular body, sporty compact styling, exceptional handling and outstanding performance - the Kia Stonic is for those who demand more from life.

Stonic is much more than sharp styling. Under the hood lies a masterclass of modern engine technology. The Stonic features Kia's latest high-efficiency Smartstream engine. All get up and go, it makes driving so rewarding, whether you're negotiating urban traffic or heading for the hills.

Kia's acclaimed 1.0L GDi Turbo engine paired to a seven-speed dual clutch transmission is utmost capability and pure class. The two combine to provide a more spirited drive, together with reduced weight and lower fuel consumption.

Overseas Model Shown.

Stand out from the crowd

They will see you coming. Stonic features bold and assertive front styling, with the signature Kia 'Tiger nose' grille set between distinctive LED headlights (GT-Line & GT-Line+ only). On the SX model, static bending light is designed to illuminate the path around corners while turning at low speed, offering improved visibility and a safer nighttime driving experience. Performance-driven styling continues, with large lower and side intakes directing airflow to the engine and wheel wells.

From behind, the agile Stonic makes an equally striking impression, with its dramatically raked, rear window capped by a purposeful spoiler. Three-dimensional LED rear combination lights is another standout feature on the GT-Line Plus model. The muscular fenders, bumper and airflow-regulating skid plate project strength and practicality.

The Stonic comes in refreshingly bold and lively colours which accentuate its dynamic contours.

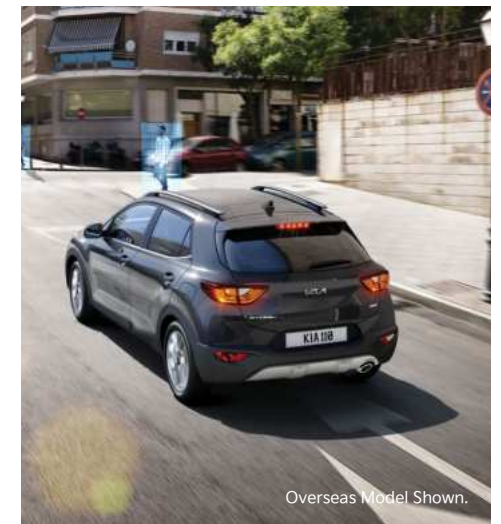

Overseas Model Shown.

Anticipate the unexpected

With Stonic, being at the wheel is more than satisfying and exciting. Whether you're parking, negotiating city streets, or on the expressway, the latest high-tech driver assistance and advanced safety features watch out for trouble, alert you, and even step in, to help you stay in the clear.

Stonic features several of Kia's latest Advanced Driving Assistance Systems. These include Forward Collision Avoidance Assist (FCA) with pedestrian, vehicle and newly-introduced cyclist recognition, Lane Keep Assist (LKA), Driver Attention Alert (DAA),

Blind Spot Collision Avoidance Assist (BCA) and Rear Cross Traffic Collision Avoidance Assist (RCCA) are available on the GT-Line Plus trim, with SX, GT-Line and GT-Line Plus trims having Front Parking Sensors in addition to Rear Parking Sensors. All trims have a Rear View Camera with Dynamic Guidelines, indicating the path you're on while reversing.

Dynamic in every way

A large 8.0 inch touchscreen display comes as standard on all Stonic models. The infotainment system features Bluetooth® multi-connection, allowing you to connect two mobile devices at the same time - one for hands-free phone and media, the other for media only.

The driver is also rewarded with a restyled 4.2-inch instrument cluster that is easy to read and operate. And the high tech doesn't stop there. Wireless Apple CarPlay™ and Android Auto™ are standard in the SX and GT Line models, removing the need to connect your smartphone via a cable.

In the cabin, clean, sculpted contours please the eye, and driving is uninterrupted fun.

In both the GT-Line and GT-Line Plus, the steering wheel is shaped to stay clear of your legs and the shift knob and other controls are positioned for quick engagement. Staying focused is the name of the game.

A compact SUV like the Stonic is designed to put dreams and plans in motion. Its spacious interior and cargo flexibility make it easy to set out on adventures, and get more things done in the course of the day.

*** Leather seats and other fixtures may comprise of genuine leather, and man-made leather-like materials or a combination thereof.

± Not all smartphones / devices may be compatible.

° Apple CarPlay™ requires an iPhone 5 or later. It is recommended to always update your iPhone to the latest iOS release. Use the Apple Lightning cable provided with your phone, or an Apple-certified Lightning cable. Kia cannot guarantee continued compatibility

° Android Auto™ requires an Android phone with Android 5.0 Lollipop or higher. It is recommended to always update your phone to the latest OS release. Use the USB cable provided with your phone. Kia cannot guarantee continued compatibility.

Specifications apply to 2025 (MY25) Stonic models. Kia New Zealand Limited reserves the right to discontinue or change the models, features, specifications, options, designs and prices of products referred to in this brochure without incurring any liability whatsoever to any purchaser or prospective purchaser of any such products

Kia confidence goes further.

All new Kia Passenger Vehicles come with an impressive 5-Year / 150,000 km (whichever comes first) Warranty Programme covering against manufacturing or assembly defects. This warranty programme is transferable between owners and emphasises our commitment to our customers.

A Roadside Assistance Programme for the duration of the Warranty Period is also offered on every new Kia at no cost. In the unlikely event that your Kia has broken down, help is only a call away and trained staff will be dispatched to your location. If a repair cannot be conducted on the spot, the vehicle will be towed free of charge to the nearest Kia dealer.
